## CORN COMPETITION

Farmers from the District of Kent may register their forage corn fields in mid-August. The corn fields are judged by forage specialists from the Agassiz Research & Development Centre (Agriculture Canada). Some of the criteria the judges look for include uniformity of the stand, maturity, field weed control, dry matter content and efficient use of fertilizer.

On Fair day, the winner rides in a place of honour in the parade and is crowned during the Opening Ceremonies following the parade.
